

MS Outlook Express – dodavanje novog e-mail računa

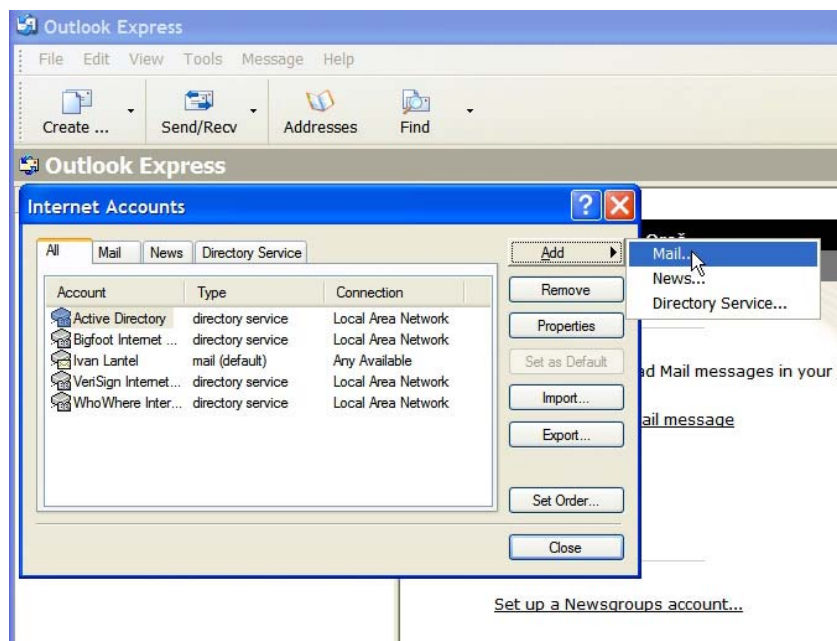

Da biste dodali novi e-mail račun (account) slijedite sljedeće upute:

Pokrenite Outlook Express: **Start >> All Programs >> Outlook Express**

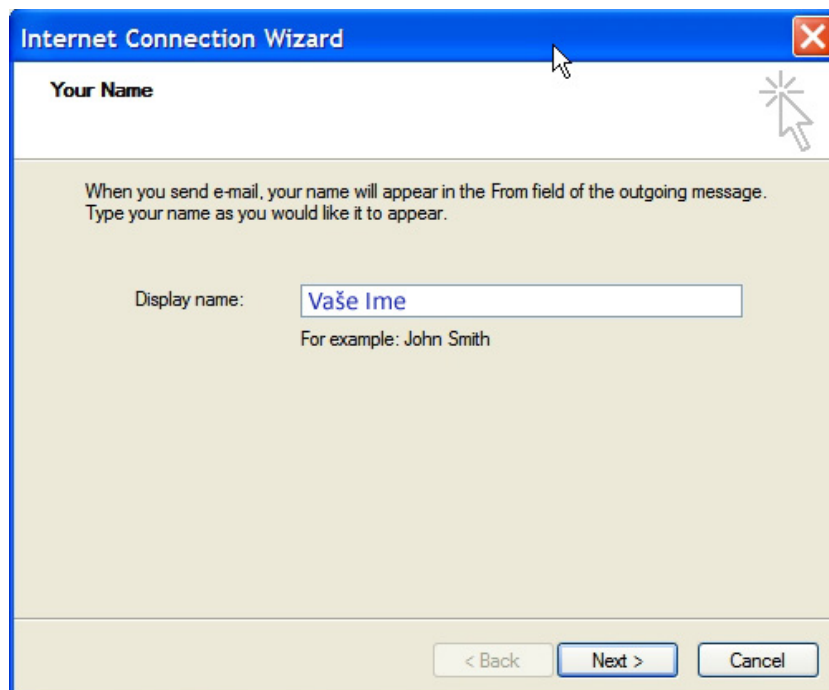

Kliknite na **Tools** i odaberite **Accounts**

Klikom na **Accounts** pojavit će se novi prozor **Internet Accounts** u kojem sa desne strane kliknite na gumb **Add** i iz menija izaberite opciju **Mail** kao što je dolje prikazano.

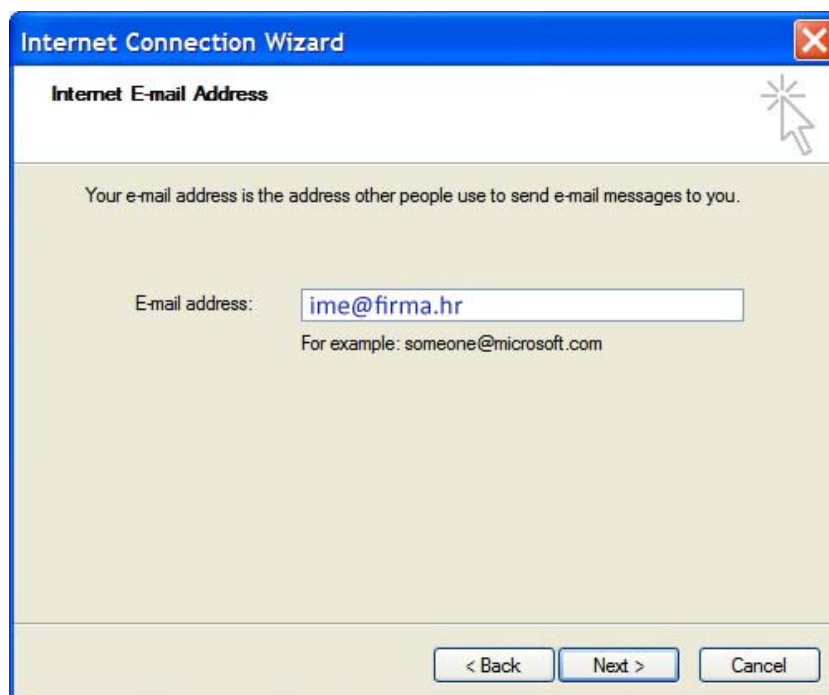

Time pokrećete Internet Connection Wizard za dodavanje novog korisničkog računa. Upišite svoje ime i odaberite Next.

The screenshot shows the 'Your Name' step of the Internet Connection Wizard. The window title is 'Internet Connection Wizard'. The main heading is 'Your Name'. Below the heading, there is a text box with the instruction: 'When you send e-mail, your name will appear in the From field of the outgoing message. Type your name as you would like it to appear.' Below this, there is a label 'Display name:' followed by a text input field containing 'Vaše Ime'. Underneath the input field, it says 'For example: John Smith'. At the bottom of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'.

U slijedećem koraku upišite svoju e-mail adresu.

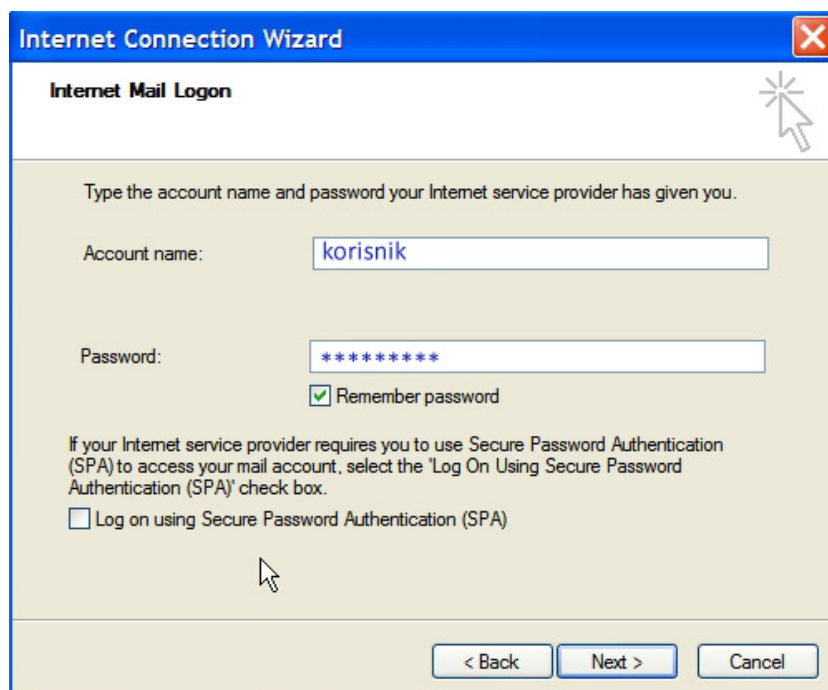

The screenshot shows the 'Internet E-mail Address' step of the Internet Connection Wizard. The window title is 'Internet Connection Wizard'. The main heading is 'Internet E-mail Address'. Below the heading, there is a text box with the instruction: 'Your e-mail address is the address other people use to send e-mail messages to you.' Below this, there is a label 'E-mail address:' followed by a text input field containing 'ime@firma.hr'. Underneath the input field, it says 'For example: someone@microsoft.com'. At the bottom of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Nakon toga upišite ime dolaznog (incoming) i odlaznog (outgoing) mail poslužitelja. Ako koristite mail server preko vaše web domene tada se i mail serveri tako zovu. Npr. ako domena glasi www.domena.hr tada će mail serveri biti pop.domena.hr i mail.domena.hr, odnosno za odlazni (outgoing) server možete izabrati mail server svog davatelja pristupa internetu – mail.t-com.hr, mail.iskon.hr, mail.vipnet.hr ili neki drugi.

The screenshot shows the 'Internet Connection Wizard' dialog box, specifically the 'E-mail Server Names' step. The window title is 'Internet Connection Wizard'. The main heading is 'E-mail Server Names'. Below this, there is a dropdown menu set to 'POP3' with the text 'My incoming mail server is a POP3 server.' Below that is a text input field for the 'Incoming mail (POP3, IMAP or HTTP) server:' containing 'pop.lantel.hr'. Further down, there is a text input field for the 'Outgoing mail (SMTP) server:' containing 'mail.t-com.hr'. At the bottom of the dialog are three buttons: '< Back', 'Next >', and 'Cancel'.

Nakon toga upišite svoje korisničko ime i lozinku. Označite kvadratić **Remember password** ukoliko ne želite svaki put unositi lozinku kod slanja i primanja poruka.

The screenshot shows the 'Internet Connection Wizard' dialog box, specifically the 'Internet Mail Logon' step. The window title is 'Internet Connection Wizard'. The main heading is 'Internet Mail Logon'. Below this, there is a text input field for 'Account name:' containing 'korisnik'. Below that is a text input field for 'Password:' containing '*****'. There is a checked checkbox labeled 'Remember password'. Below that, there is a text input field for 'Log on using Secure Password Authentication (SPA)' which is currently unchecked. At the bottom of the dialog are three buttons: '< Back', 'Next >', and 'Cancel'.

U narednom prozoru kliknite **Finish** i time ste kreirali novi korisnički račun. Za testiranje maila pošaljite mail na novostvoreni korisnički račun i ako je sve u redu dobit će te taj mail natrag.

Za pristup svome email poštanskom sandučiću preko web preglednika upišite ime svoje domene i iza toga dodajte **/mail**, npr: www.moja-domena.hr/mail.
